How to Save Money on Fencing without Compromising Quality!

If the quality of the major brands of energisers on the market is at least equal to our energisers which, we believe, is a fact, what is it that decides which brand and which size you buy?

Power of an Energiser

The power output of an energiser is measured in Output Joules and the rule is that

One Output Joule can Power 10 km of 3-Wired Fence

This rule applies if the fence and the earthing system are perfect. Imperfections reduce the power on the fence. In other words, if you have 30 km of fence line you require at least a 3 Output Joule energiser to keep your animals in the paddock. Consideration also must be given to the kind of animals you have in your paddock. Bulls certainly require a higher voltage on the fence than cows. But overall the principle remains.

Price Comparison

Taking the above into consideration a price comparison is quite simple and can save you a lot of money in many cases. For example our larger units compare as follows:

<i>Red Trout LIMB80 IP</i> has 8.0 Output Joules and costs	\$ 695.00
<i>Competition Energiser A</i> has 7.7 Output Joules and costs	\$ 1,017.00
<i>Competition Energiser B</i> has 6.0 Output Joules and costs	\$ 1,005.00

*In other words, if you buy a **Red Trout LIMB80** you save **\$ 322.00 or \$ 645****

<i>Red Trout LIMB120 IP</i> has 12.0 Output Joules and costs	\$ 815.00
<i>Competition Energiser A</i> has 12.4 Output Joules and costs	\$ 1,263.00
<i>Competition Energiser B</i> has 12.0 Output Joules and costs	\$ 1,240.00

*In other words, if you buy a **Red Trout LIMB120** you save **\$ 448.00 or \$ 425***

<i>Red Trout LIMB160 IP</i> has 16.0 Output Joules and costs	\$ 990.00
<i>Competition Energiser A</i> has 15.5 Output Joules and costs	\$ 1,695.60
<i>Competition Energiser B</i> has 18.0 Output Joules and costs	\$ 1,790.00

*In other words, if you buy a **Red Trout LIMB160** you save **\$ 705.00 or \$ 600****

**Adjusted for difference in Output Joules*

Service Offered

Red Snap'r offers a 24-hour service which means that your energiser is serviced/repared within 24 hours of receipt in our workshop. Labour for non-warranty repairs or check-ups are free of charge. Only spare parts required will be invoiced.

Our Website www.redsnapr.co.nz shows a detailed price comparison of the major NZ brands with ***Red Snap'r***. This price comparison purposely does not include special features as they have different values to different people.

If you have any questions or comments, please do not hesitate to contact us!

Happy Farming!
